## A Present to the Press Club.

Rev. Monsignor Sullivan has placed the Wheeling Press Club under obligations by the presentation of a complete and handsome set of Chambers's encyclopedia. The members appreciate his thoughtful liberality greatly.

## A Piece of Flesh Bitten out.

Saturday John Nolte, a young boy living on the island, was annoying one of the ponies belonging to Harris's Nickel Plate Circus, on the Bridge park, when the pony became enraged, and snatching at the boy, bit a big piece of flesh out of his left chest, inflicting a very painful wound. He was taken home and his injury attended to properly.

## A Narrow Escape.

Two Wheeling men narrowly escaped being killed while at work at putting in the sewer pipe at Jefferson street, in Martin's Ferry, on Saturday. They had been down in the ditch, which was nine feet deep, and came out just before one side caved in. The dirt weighed several tons and would have crushed the two men to death. They had not been out of the ditch a minute when the earth caved in.

## Fish not Plenty.

Fish are said to be very scarce in the river hereabouts this summer. Said a fisherman yesterday: "I put out a trot line yesterday morning, and have looked at it four times without catching a single fish." Another said: "I have been fishing with cheese with poor success. I baited my line with cheese on Friday and up to yesterday only two pieces were gone. Craw fish and worms make the best bait, at least this has been my experience."

## An Old-Time Circus.

Harris's "Nickel Plate" circus, which gave two exhibitions on the island Saturday and will give two more this afternoon and evening, is the best cheap show by long odds ever seen here. It is the old-fashioned one ring circus, and carries one back to his boyhood days, the days of Old John Robinson, Dan Rice and Thayer & Noyes, of blessed memory. The riding, the tumbling and the aerial performances are all good, and there are two of the best clowns in the business.

## The Elmgrove Strike.

A Standard mill roller explains that the difference between the rollers and their employees is due to a determination on the part of the companies to take off \$2 from the wages heretofore paid for rolling double steel, and not to a demand by the men of an increase of \$2 a ton, as has been understood by the public.

All of the men who work at doubling steel in the Elmgrove and Standard mills have been requested to meet the manufacturers at the Elmgrove mill office this morning at 10 o'clock. If the question of doubling steel is adjusted this morning it is thought that work will be resumed in both mills to-morrow. Everything else has been settled satisfactorily.

## The Labor Day Races.

The Trades Assembly Labor Day committee met yesterday afternoon at Trades Assembly hall and transacted considerable routine business concerning the parade and picnic. Representatives from the Martin's Ferry and Belaire Sporting Horse Companies were present, and an article of agreement was drawn up and signed, naming the terms of the firemen's race. The contest, which is for a purse of \$110, will be a hub and hub race, under the rules and conditions of the Firemen's Association of Eastern Ohio.

Entry fees for the horse races—trotting, pacing and running—may be left at William Gruber's cigar store in Beck's block. The trot and pace will be for a purse of \$75 each, divided, mile heats, best three in five, and the running race, for a purse of like amount, mile heats, best two in three.

The New York Herald has announced a novel plan for the present presidential campaign. To the person who most nearly predicts the popular plurality of either Cleveland or Harrison, it will give a free trip around the world, paying all expenses; to the person making the second best prediction it will provide a trip to London, Paris and return, and the third best prediction will be rewarded by a trip to London and return. Competition is open to residents of all parts of the United States, the only conditions being that the prediction must be made on a ballot which is printed in the Herald every morning. Any one can make as many predictions as he has ballots.

**Pure and Wholesome Quality**  
Commands to public approval the California liquid laxative remedy, Syrup of Figa. It is pleasant to the taste and by acting gently on the kidneys, liver and bowels to cleanse the system effectually, it promotes the health and comfort of all who use it, and with millions it is the best and only remedy.

Take the naphtha yacht, foot of Twelfth street, for the German Benevolent society picnic to-day at the new fair grounds.

**Clearance Sale**  
Of Oxford Ties and low shoes of every description at reduced prices.

## THE NEW STEEL COMBINE.

Further Appointments of Officials Made. Some of the Plans.

The new Wheeling Iron and Steel Company has appointed. Charles C. Woods, now of the Belmont mill office, bookkeeper of the new concern, and Will Higgins, now of the Benwood office force, payroll clerk. All the books of the separate concerns have been removed to the Benwood office on Fourteenth street, which will be the headquarters of the new corporation. By the combine the company comes into the title to the office building, with the other real estate of the two concerns. It is understood that the clerks employed by the three companies will remain in the new one's employ for the present, and the two several offices of the other companies will be kept at the works until experience shows that they may be conveniently be dispensed with.

## Artistic Work.

Artist John Myles is doing some very acceptable work these days in the portrait line. A reporter strolled into his studio the other day and saw some excellent proofs of his skill. Among the pictures noticed was an excellent likeness of Mrs. Joseph Gleasenkamp, of Allegheny, Pa., well known here as Miss Annie Hess, the charming daughter of Mr. Christian Hess. It is a speaking picture. The portrait of Mr. John Frew and grandson is one of Mr. Myles's best efforts. Mr. Frew doesn't look a day older for being a grandfather. It is a life-like reproduction of a photograph. Another handsome portrait that commands admiration is that of the late Mrs. W. J. Lukens, daughter of Mr. John Bodley. Mr. Myles's work not only reflects credit on himself, but on his native city, which can boast of him as an eminent portrait artist.

## Wheeling Is His Home.

Col. Jake Kempe, of this city, U. S. inspector of immigration, who has recently been stationed in Buffalo, N. Y., but is now home on a visit, will spend his vacation in West Virginia, and will make several Republican speeches. The colonel wants it distinctly understood that Wheeling is his legal and actual residence still. He has no more forfeited his residence here while away on duty than Congressman Pendleton, for instance, does by going to Washington to attend congress. Colonel Kempe is subject to be assigned by the department to any port of entry where his services are thought to be desirable.

## Sudden Death of a Young Woman.

Mrs. Klingly, of this city, recently returned from a three weeks' visit to her daughter, Mrs. Josephine Bird, at Newmarket, Va., leaving her daughter in perfect health. She had been home but a day or two when, on Friday evening, she received a telegram asking her to come to Newmarket at once. She went, and found that her daughter had died yesterday. She was taken ill on Friday, and grew rapidly worse. Mrs. Bird was but eighteen years of age, and her death is peculiarly sad.

## A Perfect August Sunday.

Yesterday was a perfect August day, cool enough to be comfortable in the shade. There was the usual big rush to the Park, all the Elm Grove trains being full throughout the early half of the afternoon. An excursion party from Pittsburgh, a little larger than the average, came down over the Baltimore & Ohio road, and most of its members joined the throng parkward bound, where the music of the Opera House orchestra delighted hundreds.
